Albuquerque, New Mexico 87125

September 18, 1980

The Honorable Harry Early  
Governor, Pueblo of Laguna  
Laguna, New Mexico 87026

Dear Governor Early:

Attached for your review is one copy of Anaconda's proposed reclamation plan for the Jackpile-Paguate Mine Complex. It is my understanding that Anaconda has already provided you with a number of copies but if more are needed we will be happy to provide them.

The Geological Survey is reviewing the plan in detail and would like to begin consultation meetings with the Pueblo during the second week of October. I will contact you to arrange a specific date at a later time.

We look forward to very productive consultation with the Pueblo.

Thank you.

Marc Nelson  
Environmental Scientist
